- Bluetooth Handsfree
- Alarm + antitheft immobilizar

Compact on the outside, big on the inside: Folding down the rear seat opens up extra luggage capacity. Leaving more space to accommodate all kinds of cargo.

Suspension: Is designed to reduce vibration and enhance ride comfort. In addition, sound absorbing and vibration damping materials are adopted throughout the entire body, and acoustic glass with 3-layers structure.

Confort: The front/rear seat couple distance has been increased, and front seatbacks have been redesigned, helping secure ample legroom for rear-seat occupants.

Anti lock Brake system: With electronic Brake-force Distribution helps maintain vehicle stability and driver control when braking. It includes a Brake Assist function that increases the braking force when the brakes are applied suddenly to make an emergency stop.

SRS Airbags: Are adopted for the driver's and front passenger's seats. In addition, the body structure efficiently absorbs and distributes energy from frontal and side impacts, helping reduce cabin deformation.
