Dial-type transfer case: With 4Runner's available dial-type transfer case on SR5 and Limited, you can switch into low range for extreme low-speed off-road conditions with the turn of a dial. Taking on hard conditions is that easy.

Smart Key Sysytem: Getting the trip started is as easy as clearing a muddy terrain on 4Runner. When you approach the Limited with the Smart Key in your pocket, the interior illuminates automatically, the doors and rear liftgate open with the touch of a handle, and the engine starts with a push of a button.

Integrate backup camera display: When backing up, the area visible to the camera is displayed on the touch-screen display. 4Runner's available front and rear parking assist sonar beeps to tell you how close the bumpers are from an object. The faster it beeps, the closer it is.

8 Airbags: A driver and front passenger Advanced Airbag System, driver and front passenger TAP, front seat-mounted side airbags, driver and front passenger knee airbags and all-row Roll-sensing Side Curtain Airbags (RSCA) with cutoff switch. 2 It's all part of a system designed to help keep you safe.

Sliding rear cargo deck: Get quick access to your gear, or the cooler. The available sliding rear cargo deck can support up to 440 lbs.¹ and slides for an easy reach to your gear, or a quick setup before heading to the great outdoors.

4,700-LB. TOWING CAPACITY WITH TOW HITCH: 4Runner's powerful engine lets you tow up to 4,700 lbs. so your toys can get to all the places you've dreamed of going. 4Runner is also SAE J2807-compliant, the standard for tow ratings set by the Society of Automotive Engineers, SAE.
