- Sport display cluster

### Pretensioners/force limiters (Front seat belts):

In strong frontal collisions, pretensioners rewind the seat belts instantly to help assist occupant restraint. Force limiters help to relieve the force on the upper torso.

**Quietness:** Optimum placement of noise-absorbing, noise-insulating and vibration-damping materials contributes to the outstanding quietness in the cabin.

**Trunk Space:** The ample trunk can accommodate various sizes of luggage. When the doors are unlocked, the trunk can be opened by pushing the switch integrated in the license plate garnish.

**Aerodynamic:** Careful shaping of the body and aero stabilizing fins on the base of the door mirrors and the rear combination lamps enhance the airflow.

**Steering wheel switches:** Contributing to relaxed driving, you can adjust the audio system among other functions without taking your hands off the wheel. Also come with Bluetooth.

**Available Smart KEY system:** Smart Key is a wonderful convenience. When you approach Corolla with the Smart Key fob in your pocket or purse, the interior illuminates automatically.
